

# Engineering Manager

Do you have a **great attitude**, have a **strong work ethic**, have exceptional **customer service skills**, and are **passionate** about what you do? At RHK, we are passionate about hydraulic cylinders and we are seeking an Engineering Manager to join our team, where everyone feels like family!

Reporting to the Vice President, Operations, the Engineering Manager oversees Engineering and Design functions while integrating with the Operations Team. The Engineering Manager focuses on developing and deploying processes that improve efficiency, interfaces with internal and external stakeholders, and contributes to Operational Excellence.

## Duties and Responsibilities:

- Coordinate the Engineering Department
- Manage design and development processes
- Integrate with Operations functions
- Contribute to Operational Excellence and Continuous Improvement
- Manage creation of Bills of Operations and Materials
- Manage cost estimation process
- Improve and sustain Engineering Change processes
- Collaborate on Infrastructure improvement
- Project management and cost control
- Liaise with customers, clients, and vendors as required
- Process improvement
- Other duties as required and assigned

## Requirements:

- Undergraduate degree in engineering
- Professional Engineer Designation preferred
- Manufacturing experience
- Metrology experience
- Proficiency with CAD and CAD-CAM tools
- Strong leadership and management skills
- ERP experience
- Creative, adaptable, and positive

## Working Environment/Physical Demands

- Manual dexterity required to use desktop computer and peripherals.
- Frequently exposed to fumes or airborne particles, mechanical parts, and vibration.
- Noise level in the work environment can be loud.
- 40-hour work week, evenings or weekends as required

## About Us...

Established in 1990, RHK Hydraulics Cylinder Services is a privately-owned company dedicated to manufacturing and servicing hydraulic cylinders. We are known for our high standard of customer service and skillful customization of products to meet our client's unique requirements. Based in Edmonton, Alberta, RHK services a wide range of clients worldwide in industries such as oil and gas, construction, agriculture, heavy machinery, forestry, mining, transportation, and utilities.

Over the years RHK's success of **tackling the most challenging projects** has been through natural and organic growth, and we are evolving! We are excitedly positioning ourselves for continued growth in the future by building on a team dedicated to a **safe and empowered team, raising the bar, and customer success**.
